

25 July 2011

**Avia Health Informatics Plc
("Avia" or the "Company")**

**End-to-end Clinical Support for Clinical Commissioning Groups
and the UK Healthcare Service**

Avia (AIM: AVIA), the AIM-listed developer and provider of clinical decision support systems, through Plain Healthcare (Plain) our wholly owned subsidiary, can now offer end-to-end clinical support to Clinical Commissioning Groups and the UK Healthcare Service.

The group now boasts a product range spanning products to support Self-assessment, Reception prioritisation, over the phone and face-to-face Clinical consultation, Remote Assessments, GP assessments and Referral Facilitation.

The Odyssey product range supports clinical assessments in various environments by both clinical and non-clinical users, the range has been continuously developed over the last 15 years.

Our newest product - PathFinderRF offers online referral facilitation for GPs, Nurse Practitioners or Practice Nurses within General Practice to manage the quality of referrals to community and specialist services.

We also provide a full range of Learning and Development services through our in-house team of specialists who offer a blended learning approach with on-site, remote and eLearning courses available. The learning interventions available include not only product training but associated skills and change management. Our Consultancy services can also assist organisations in improving effectiveness, demonstrating the quality of their service and reviewing data.

Barry Giddings, Executive Chairman of Avia, commented:

"With the continuous development of our Odyssey product range, the recent launch of PathFinderRF and our extensive range of Learning and Consultancy services we are now in a unique position to offer the UK Healthcare service end-to-end support for their organisations."

About Avia Health Informatics Plc

Avia is a developer and provider of clinical decision support systems. Its Odyssey product range is used by clinicians and non-clinicians in various environments around the world to provide effective healthcare support, increasing the levels of patient care while delivering operational efficiencies. The delivery of Odyssey can be in a static or mobile environment from a PC, laptop, tablet or mobile device, with clinical content, training and services delivered via the web. The groups other product, PathFinderRF offers on-line referral facilitation to manage the quality of referrals.

Avia's partners provide market reach into geographies outside of the UK, including the United States and Australia.

The Odyssey range is built on a common medical content database which has been developed over the past 15 years. Odyssey is continually updated, tailored with question and answer sets and has a user interface adapted for the particular user groups and the environment in which it is used.

Environments include prisons, ships, call centres, GP out of hours, walk in centres, care homes, pharmacies and other clinical and non-clinical environments.
