

21 July 2011

**Avia Health Informatics Plc
("Avia" or the "Company")**

**New agent appointed to sell Odyssey to nursing homes and
assisted living facilities in the US**

Avia (AIM: AVIA), the AIM-listed developer and provider of clinical decision support systems, is pleased to announce it has appointed Roy Siapno as a new sales agent in Illinois, USA, to sell Odyssey CareAssess products to nursing homes and assisted living facilities.

Roy Siapno is a Registered Nurse who has extensive experience in the nursing home and assisted living environments in the state of Illinois, USA and has extensive relationships with individuals in this market place so will be able to initiate and promote Odyssey products to this group. He will begin promotion across the state of Illinois and has already instigated a trial in the Chicago area which will assist in further promotion moving forward.

Roy is part of a planned appointment of sales agents across North and South America to sell the Odyssey product range.

Barry Giddings, Executive Chairman of Avia, commented:

"We are pleased to have appointed Roy to sell our Odyssey CareAssess product to this key marketplace in the USA and are confident he will assist in securing sales in his territory."

Roy Siapno, commented:

"I am confident that the nursing home and assisted living environment will see the advantages of the Odyssey products and I am looking forward to taking these products to market across Illinois."

About Avia Health Informatics Plc

Avia is a developer and provider of clinical decision support systems. Its Odyssey product range is used by clinicians and non-clinicians in various environments around the world to provide effective healthcare support, increasing the levels of patient care while delivering operational efficiencies. The delivery of Odyssey can be in a static or mobile environment from a PC, laptop, tablet or mobile device, with clinical content, training and services delivered via the web. The groups other product, PathFinderRF offers on-line referral facilitation to manage the quality of referrals.

Avia's partners provide market reach into geographies outside of the UK, including the United States and Australia.

The Odyssey range is built on a common medical content database which has been developed over the past 15 years. Odyssey is continually updated, tailored with question and answer sets and has a user interface adapted for the particular user groups and the environment in which it is used.

Environments include prisons, ships, call centres, GP out of hours, walk in centres, care homes, pharmacies and other clinical and non-clinical environments.
