

18 July 2011

**Avia Health Informatics Plc
("Avia" or the "Company")**

**Strategic Partnership signed with K3 Healthcare -
Institute of Remote Healthcare**

Avia (AIM: AVIA), the AIM-listed developer and provider of clinical decision support systems, is pleased to announce it has signed a non-exclusive partnership agreement with K3 Healthcare / the Institute of Remote Healthcare to promote the Odyssey product range to providers of remote healthcare.

K3 HealthCare ("K3") is a leading provider of Remote Healthcare solutions and services and is the commercial arm of the Institute of Remote HealthCare ("IRHC"), an independent academic organisation devoted to the improvement of healthcare for those who live and work in remote and isolated places. The K3 team has over 30 years' experience in delivering healthcare solutions both for the public and private sector working in over 20 different countries across the world. The team comprises renowned professors, medical experts and eminent specialists of medical education, occupational health, remote medicine and more.

The partnership will mean K3, IRHC and Avia collaborate in developing Odyssey clinical decision support software sales opportunities to remote healthcare organisations around the world.

Barry Giddings, Executive Chairman of Avia, commented:

"We are very pleased to be working in partnership with K3 Healthcare and the Institute of Remote Healthcare, as this will assist us in developing international relationships and sales through introductions to various organisations working in remote healthcare."

About Avia Health Informatics Plc

Avia is a developer and provider of clinical decision support systems. Its Odyssey product range is used by clinicians and non-clinicians in various environments around the world to provide effective healthcare support, increasing the levels of patient care while delivering operational efficiencies. The delivery of Odyssey can be in a static or mobile environment from a PC, laptop, tablet or mobile device, with clinical content, training and services delivered via the web. The groups other product, PathFinderRF offers on-line referral facilitation to manage the quality of referrals.

Avia's partners provide market reach into geographies outside of the UK, including the United States and Australia.

The Odyssey range is built on a common medical content database which has been developed over the past 15 years. Odyssey is continually updated, tailored with question and answer sets and has a user interface adapted for the particular user groups and the environment in which it is used.

Environments include prisons, ships, call centres, GP out of hours, walk in centres, care homes, pharmacies and other clinical and non-clinical environments.
