## **Avia Health Informatics Plc**

("Avia" or "the Company")

### **Plain Healthcare launches PathFinderRF to existing Nene CCG & Corby Healthcare CCG users**

#### Highlights

- Plain Healthcare launch new PathFinderRF website and clinical content to existing users in the Nene Commissioning CCG
- PathFinder-RF delivers 50% increase in the available referral forms and enhanced user experience

Avia (AIM: AVIA), the AIM-listed developer and provider of clinical decision support systems worldwide, is pleased to announce that its subsidiary, Plain Healthcare Limited ("Plain") has launched the new version of PathFinderRF to existing users in the Nene and Corby Healthcare Clinical Commissioning Groups.

Plain has developed a new version of the PathFinder software, conceived by the award winning commissioning group, Nene Commissioning CIC. It is being marketed across the NHS as PathFinderRF and includes referral forms for a large number of new clinical presentations and an enhanced user experience.

Users within the Nene Clinical Commissioning Group will be migrated to the new website over the month of January.

Significant work has been completed on the development of the new PathFinderRF website including the inclusion of a substantial number of new referral templates that adhere to national guidelines and a new Content Management System for commissioning groups to develop their own local forms and manage local content.

#### **Barry Giddings, Chairman of Avia, commented:**

*"We are pleased to release the new version of PathFinder-RF to the existing users in the Nene and Corby commissioning groups and believe that the significant investment in new clinical content and new interface will lead to further improvements in quality, risk management and cost savings across patient referrals."*

## **About Avia Health Informatics Plc**

Avia is a developer and provider of clinical decision support systems. Its Odyssey product range is used by clinicians and non-clinicians in various environments around the world to provide effective healthcare support, increasing the levels of patient care while delivering operational efficiencies. The delivery of Odyssey can be in a static or mobile environment from a PC, laptop, tablet or mobile device, with clinical content, training and services delivered via the web. The groups other product, PathFinderRF offers on-line referral facilitation to manage the quality of referrals.

Avia's partners provide market reach into geographies outside of the UK, including the United States and Australia.

The Odyssey range is built on a common medical content database which has been developed over the past 15 years. Odyssey is continually updated, tailored with question and answer sets and has a user interface adapted for the particular user groups and the environment in which it is used. Environments include prisons, ships, call centres, GP out of hours, walk in centres, care homes, pharmacies and other clinical and non-clinical environments.
