

3 November 2010

Avia Health Informatics Plc

("Avia" or "the Company")

New Advisers

Highlights

- Panmure Gordon (UK) Limited appointed nominated adviser and broker
- DLA Piper appointed legal advisers

Avia (AIM: AVIA), the AIM-listed developer and provider of clinical decision support systems worldwide, is pleased to announce the appointment of Panmure Gordon (UK) Limited as its nominated adviser and broker, and DLA Piper as legal advisers with immediate effect.

Barry Giddings, Executive Chairman of Avia, commented:

"The board believes that by these appointments Avia will be better positioned to manage its existing operations and take advantage of international opportunities as they present themselves. I am pleased to welcome Panmure Gordon and DLA Piper to the team and I hope that their considerable international experience and presence will support the Company in penetrating global markets."

Notes to editors

Avia is a developer and provider of clinical decision support systems worldwide. Its Odyssey product range is for use by clinicians and non-clinicians in various environments around the world. The delivery of Odyssey can be in a static or mobile environment from a PC, laptop, tablet or mobile device.

Strategy

The primary focus of Avia's strategy is achieving global market penetration for the Company's Odyssey software products. We deliver Odyssey clinical content, training and other services via web-deployed, cloud-enabled, mobile and PC technologies. This

is achieved through direct sales and the engagement of resellers and added value partners. Avia's strategy for growing its business is focused on:

- Organic growth in the sale of the software product range
- Working with partners and resellers to increase penetration in new markets

Product range

The Odyssey range is built on a common medical content database which has been developed over the past 15 years. Odyssey is continually updated, tailored with question and answer sets and a user interface adapted for the particular user groups and the environment in which it is used. The range includes:

- **Odyssey CareAssess** to support decisions made by care assistants or clinicians in the Care Home environment
- **Odyssey FaceToFace** for face to face assessments in nurse-led clinics, walk-in centres, GP-led health centres and other services
- **Odyssey FirstAssess** is specifically for use in Prison/Jails and secure environments
- **Odyssey MarineAssess** for use on cargo vessels travelling the globe for use by the ship's captain or master in the event of illness or injury
- **Odyssey ParaMedic** to empower paramedics to make safe assessments in emergency situations
- **Odyssey PatientAssess** is specifically for use within doctor's surgeries to reduce demand for same day appointments
- **Odyssey Reception** is utilised by non-clinical staff to prioritise patient queues and identify potential emergencies quickly and safely
- **Odyssey SelfAssess** is to allow patients to self-assess their symptoms prior to consultation with clinical services
- **Odyssey TeleAssess** supports telephone triage by nurses in call centre operations, out of hours services, ambulance trusts, the MoD and other services
- **Odyssey VillageAssess** to support those with limited or no clinical expertise working in remote villages and locations
