

21st February 2011**Avia Health Informatics Plc
("Avia" or the "Company")****The Advanced Health & Care division of Advanced Computer Software plc
appointed as UK reseller of Odyssey CareAssess**

Avia (AIM: AVIA), the AIM-listed developer and provider of clinical decision support systems, is pleased to announce the signing of a reseller contract between its wholly owned subsidiary, Plain Healthcare Limited ("Plain"), and the Advanced Health and Care division ("AHC") of Advanced Computer Software plc ("ACS"), for the sale of its Odyssey CareAssess product in the UK care home market.

Odyssey CareAssess has been designed specifically to meet the needs of nursing and residential care homes and draws on the Company's years of experience within the healthcare industry. It enables both clinical and non-clinically trained staff to offer care home residents high levels of care and support in the event of illness or injury. Avia will sell Odyssey CareAssess globally to the care home market through Avia's expanding international reseller network.

Odyssey CareAssess is one of several product variants in the Odyssey product range, leveraging the Company's core clinical content database via the internet and mobile connectivity through a tailored interface, to provide cost-effective access and efficiency benefits to healthcare providers and recipients.

AHC is a supplier of health and care software solutions and already has an existing customer base in the UK care home sector. Their contacts and experience within the care home sector is expected to help promote the adoption of Odyssey CareAssess in this environment. The contract gives AHC, and the companies within the division, exclusive reseller rights for Odyssey CareAssess in the 20,000 plus UK care home market for an initial period of one year.

Barry Giddings, Executive Chairman of Avia, commented:

"The Avia subsidiary Plain has worked with Adastra, which is a part of ACS, for many years now and we are very pleased with this new agreement for their AHC division to sell our new Odyssey CareAssess product in the UK care home market. We believe their knowledge and experience of the sector will prove invaluable and facilitate generation of UK sales for Odyssey CareAssess."

About Avia Health Informatics plc

Avia is a developer and provider of clinical decision support systems. Its Odyssey product range is used by clinicians and non-clinicians in various environments around the world to provide effective pre-diagnostic healthcare support, increasing the levels of patient care while delivering operational efficiencies. The delivery of Odyssey can be in a static or mobile environment from a PC, laptop, tablet or mobile device, with clinical content, training and services delivered via the web.

Avia's partners provide market reach into geographies outside of the UK, including the United States and Australia.

The Odyssey range is built on a common medical content database which has been developed over the past 15 years. Odyssey is continually updated, tailored with question and answer sets and has a user interface adapted for the particular user groups and the environment in which it is used.

Environments include prisons, ships, call centres, GP out of hours, walk in centres, care homes, pharmacies and other clinical and non-clinical environments.
